Dividend Reinvestment Plan (DRP)

The Dividend Reinvestment Plan is in operation and the recommended Final dividend of 1.60 cents per share qualifies. Participating shareholders will be entitled to be allotted the number of shares (rounded to the nearest whole number) which the cash dividend would purchase at the relevant issue price. The relevant issue price will be at 2% discount to the price (calculated based on the October 2018 NTA). The final time for receipt of an election notice for participation in the Dividend Reinvestment Plan is 5pm, 21 November 2018. Shares issued under the DRP will rank equally with existing ordinary shares.

Chairman's Review

I am pleased to release the fourth Annual Report of CBG Capital Limited (ASX code: CBC).

For the year ended 30 June 2018, I am delighted to report our Company has declared an after tax profit of \$2,384,000. This compares favourably with the after tax profit from last year of \$932,000.

For the second half, we have declared 1.60 cents fully franked dividend bringing the full year dividend to 3.10 cents fully franked.

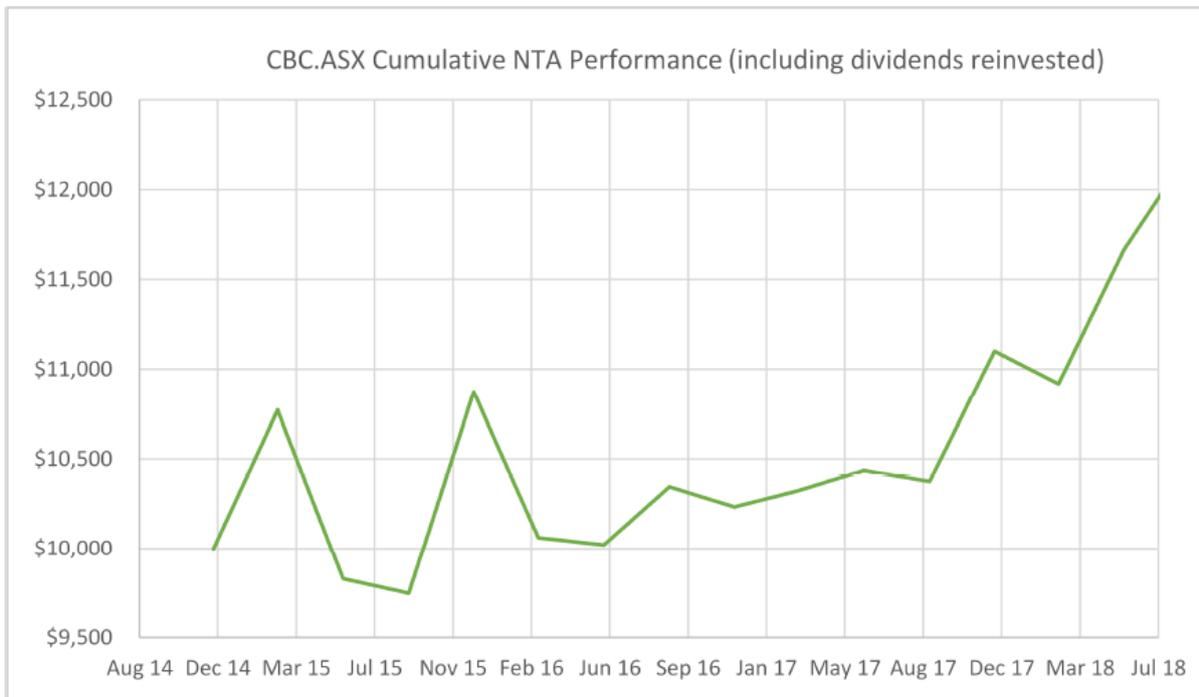

In addition, as previously announced, the Company has also declared a bonus issue of 1 for 25. The bonus shares will be issued in September so they will qualify for the 1.60 cents dividend to be paid in November. This will bring the total fully franked dividends paid to our shareholders since listing to 10.20 cents per share. When you adjust for this bonus issue, the dividend on the expanded capital is the equivalent of 1.66 cents which is the highest half year dividend the Company has declared.

The pre-tax NTA finished the financial year at \$1.065, a healthy increase from the 30 June 2017 pre-tax NTA of 97.3c and that includes the two dividends shareholders have received over the last year. Since year end, we have released our 31 July pre-tax NTA which shows a further increase to \$1.10.

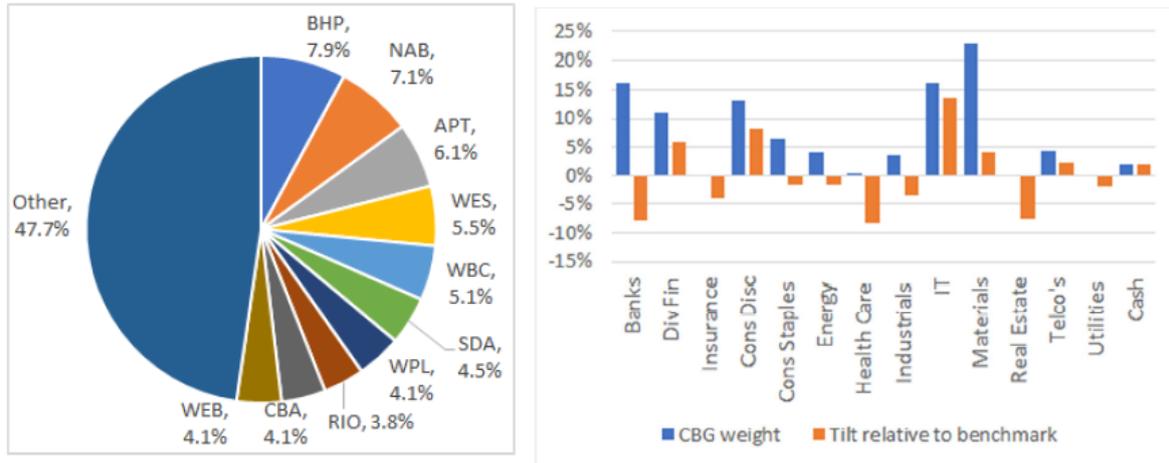

In February of 2018, Robert Swil, one of our founding directors, retired from the board and I'd like to acknowledge his wise and patient counsel that he provided to me and our Company over the last four years.

CBG Capital is in a strong position as noted by the large increase in the Profits Reserve from \$948,000 to \$2,568,000 over the latest year as shown on page 14 of this report in the Statement of Financial Position.

I am pleased to show in the graph below a healthy increase in the value of \$10,000 invested in the Company at listing as shown by the increase in the pre-tax NTA and adding back all the dividends.

Chairman's Review

As shown above the fund is positioned with high quality holdings spread across industry diversification which we feel will continue to drive attractive returns over the medium to long term.

CBG Capital Goal

The goal of our Company remains to provide our shareholders with an attractive long term risk adjusted return through a combination of rising share prices and a stream of fully franked dividends payable half yearly.

Our Investment Philosophy and Style

We use a proven and disciplined investment process that is applied using bottom-up fundamental analysis. The portfolio is focused on high quality companies with a growth bias. The investment team undertakes in excess of three hundred investment meetings each year with listed companies that we hold shares in or are potentially considering as an investment.

We undertake a detailed investigative process to comprehend the unique drivers of value in each company, then aim to identify opportunities where the intrinsic value is not reflected in the current share price.

Investments are sought with a three year plus time horizon allowing our shareholders to benefit from our longer term time horizon which is different from the typical short term seeking returns of most other equity holders.

We look for a number of attributes that consistently appear in securities which produce attractive returns. In particular, the Investment Manager (CBG Asset Management Limited) has an experienced funds management team of ten that is delivering on a robust strategy of identifying companies that are generating value for shareholders, that have solid free cash flow, a supportive industry structure, a strong balance sheet and attractive earnings or cash flow multiples relative to earnings risk and growth prospects. CBG Capital believes in this approach to investing because we believe the broad stock market regularly displays pricing inefficiencies. Causes of this include a focus on shorter investment time frames by most institutional investors and crowding of investment by investment managers in larger stocks by market capitalisation. This leaves other stocks that are under researched. For example, aversion to short term losses may lead to investors avoiding stocks which have experienced short term volatility or sell positions too early and potentially giving up gains.

Changes to the portfolio over the last year

Over the last year the Company sold out of stocks such as Automotive Holdings, ANZ Bank, Aventus Retail Fund, CSL, Macquarie Atlas, Qube, REA, Ramsey and Telstra, having achieved our share price targets and better opportunities to deploy funds elsewhere. The proceeds of these have been invested in stocks such as James Hardie, Jumbo Interactive, Lovisa, Lynas, Noni B, Webjet, Woodside and Wesfarmers.

Chairman's Review

On behalf of the board we thank you for being a shareholder in our company over the last year and look forward to continue building your wealth over the 2019 year.

Ronni Chalmers
Chairman

	<u>2018</u>	<u>2017</u>
Basic and diluted earnings (cents per share)	9.52	3.75

Significant changes in the state of affairs

Effective 1 July 2017, the Company commenced using the applicable reduced corporate tax rate of 27.5% as the Company's turnover is under the \$25 million threshold.

On 14 July 2017, Clime Investment Management Limited (ASX:CIW) acquired 100% interest in the Company's Investment Manager, CBG Asset Management Limited.

Effective 4 October 2017, Mr James Beecher resigned as Company Secretary and was replaced by Mr Biju Vikraman. Mr Vikraman is the Group Finance Manager and Company Secretary of Clime Investment Management Limited, Clime Capital Limited and Clime Private Limited.

Significant changes in the state of affairs (continued)

On 2 February 2018, Mr Robert Swil resigned as a Director of CBG Capital Limited. On the same date, Mr John Abernethy was appointed as a Director of CBG Capital Limited. Mr John Abernethy is the Managing Director of Clime Investment Management Limited, Chairman of Clime Capital Limited and a Non-Executive Director of WAM Research Limited, Australian Leaders Fund Limited, Watermark Market Neutral Fund, Watermark Global Limited, Jasco Holdings Limited, Clime Private Limited and CBG Asset Management Limited.

There have been no other significant changes in the state of affairs of the Company during the year.

Events since the end of the financial year

On 23 July 2018, the Board of Directors declared a 1 for 25 bonus issue of ordinary shares, with an intention to maintain the existing half yearly dividend rate of 1.50 cents per share on the expanded capital.

The Directors recommend a second half dividend of 1.60c fully franked per share to be paid on 27 November 2018 bringing the full year dividend to 3.10c fully franked.

No other matter or circumstance has occurred subsequent to year end that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

Likely developments and expected results of operations

The Company will continue to pursue its investment objectives for the medium to long term benefit of the shareholders. This will require continual review of the investment strategies that are currently in place and may require changes to these strategies to generate attractive returns.

Environmental regulation

The Company is not affected by any significant environmental regulation in respect of its operations.

Remuneration policy and framework

The Board from time to time determines remuneration of Directors within the maximum amount approved by shareholders. The current approved maximum remuneration paid to Directors is \$100,000 per annum to be divided among the Directors as they see fit.

The Company's Chairman (Mr Ronni Chalmers), Director (Mr John Abernethy) and Company Secretary (Mr Biju Vikraman) are employed by Clime Investment Management Limited (CIW), the parent company of the Investment Manager. CIW receives one fee from the Company designed to cover the cost of provision of those services. The Company has no staff or any other key management personnel.

Under the ASX Listing Rules, the maximum fees paid to non-executive Directors may not be increased without approval from the Company at a general meeting. Directors will seek approval from time to time as appropriate. All remuneration paid to Directors is valued at the cost to the Company and expensed. At present, no employee share or option arrangements are in existence for CBG Capital Limited's Directors. As the Company does not pay performance based fees to the Directors, nor provide share or option schemes to Directors, remuneration is not explicitly linked to the Company's performance.

For the financial year ending 30 June 2019 the Directors will be entitled to the following full year remuneration:

Name of Director	Full year remuneration
Ronni Chalmers	\$13,750
James Beecher	\$27,500
John Abernethy	\$13,750

The remuneration for Directors will be reviewed by the Board on a periodic basis as the Company develops its business and, subject to the Listing Rules, may be increased.

Insurance of officers and indemnities

(a) Insurance of officers

During the financial year, the Company paid a premium in respect of a contract insuring the Directors of the Company, the Company Secretary and any related body corporate against liability incurred as such by a Director or Secretary to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

(b) Indemnity of auditors

No indemnities have been given or insurance premiums paid during or since the end of the financial year, for any person who is or has been an auditor of the Company.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

Non-audit services

Details of the amounts paid to the auditors and their related parties are disclosed in Note 18 to the Financial Statements.

The Board of Directors is satisfied that the provision of the non-audit services during the period is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the services disclosed in Note 18 did not compromise the external auditor's independence for the following reasons:

- all non-audit services have been reviewed by the board to ensure they do not impact the impartiality and objectivity of the auditor
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the *Corporations Act 2001* is set out on page 13.

Rounding of amounts

In accordance with *ASIC Corporations (Rounding in Financial/Directors' Report) Instrument 2016/191*, the amounts in the Directors' Report and in the financial report have been rounded off to the nearest thousand dollars or nearest dollar, unless otherwise stated.

This report is made in accordance with a resolution of Directors.

The Company is primarily involved in making investments, and deriving revenue and investment income from listed securities and unit trusts in Australia.

2 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the entity CBG Capital Limited.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. CBG Capital Limited is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were authorised for issue by the Directors on 15 August 2018.

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of CBG Capital Limited also comply with IFRS as issued by the International Accounting Standards Board.

(ii) New and amended standards adopted by the Company

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2017 that have a material impact on the Company.

(iii) Historical cost convention

These financial statements have been prepared under the accruals basis and are based on historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss.

(iv) Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 5.

(v) *New standards and interpretations not yet adopted*

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2018 reporting periods and have not been early adopted by the Company. The Company's assessment of the impact of these new standards and interpretations is set out below.

Title of standard	Nature of change	Impact	Mandatory application date/ Date of adoption by the Company
AASB 15 <i>Revenue from Contracts with Customers</i>	<p>The AASB has issued a new standard for the recognition of revenue. This will replace AASB 118 which covers contracts for goods and services and AASB 111 which covers construction contracts.</p> <p>The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer - so the notion of control replaces the existing notion of risks and rewards.</p> <p>The standard permits a modified retrospective approach for the adoption. Under this approach entities will recognise transitional adjustments in retained earnings on the date of initial application (eg 1 July 2017), ie without restating the comparative period. They will only need to apply the new rules to contracts that are not completed as of the date of initial application.</p>	<p>The Company's main sources of income are interest, dividends, distributions and gains on financial instruments held at fair value. All of these are outside the scope of the new revenue standard. As a consequence, the Directors do not expect the adoption of AASB 15 to have a significant impact on the Company's accounting policies or the amounts recognised in the financial statements.</p>	<p>Mandatory for financial years commencing on or after 1 January 2018.</p>

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

2 Summary of significant accounting policies (continued)

(b) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

(i) Investment income

Profits and losses realised from the sale of investments and unrealised gains and losses on securities held at fair value are included in the Statement of Comprehensive Income in the year they are incurred in accordance with the policies described in Note 2(g).

(ii) Dividends and trust distributions

Dividends and trust distributions are recognised as revenue when the right to receive payment is established.

(iii) Interest income

Interest income is recognised using the effective interest method.

(c) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantially enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss in the Statement of Comprehensive Income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(d) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by year end. Trades are recorded on trade date, and normally settled within two business days. A provision for impairment of amounts due from brokers is established when there is objective evidence that the Company will not be able to collect all amounts due from the relevant broker. Indicators that the amount due from brokers is impaired include significant financial difficulties of the broker, and the probability that the broker will enter into bankruptcy or financial reorganisation and default in payments.

2 Summary of significant accounting policies (continued)

(e) Cash and cash equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Trade and other receivables are generally due for settlement within 30 days. They are presented as current assets unless collection is not expected for more than 12 months after the reporting date.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly.

(g) Investments and other financial assets

Classification

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading such as listed equity instruments.

Recognition and derecognition

Purchases and sales of financial assets are recognised on trade-date - the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Company measures its financial assets at fair value.

Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Comprehensive Income.

Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

When an instrument held at fair value through profit or loss is disposed, the cumulative gain or loss, net of tax thereon, is recognised as realised gains and losses from the sale of financial instruments in the Statement of Comprehensive Income.

Determination of Fair Value

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

The Company's accounting policy on fair value measurements is discussed in Note 4.

Under AASB 13, if an investment has a bid price and an ask price, the price within the bid-ask spread that is more representative of fair value in the circumstances shall be used to measure fair value. Accordingly, the Company uses the last sale price as a basis of measuring fair value.

2 Summary of significant accounting policies (continued)

(h) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(i) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(j) Profits reserve

A profits reserve has been created representing an amount allocated from retained earnings that is preserved for future dividend payments and is determined on a monthly basis.

(k) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(l) Earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year and adjusted for bonus elements in ordinary shares issued during the year.

As there are no dilutive potential ordinary shares, diluted EPS is calculated using the same methodology.

(m) Goods and Services Tax (GST)

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

(n) Rounding of amounts

In accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, the amounts in the financial statements have been rounded off to the nearest thousand dollars, unless otherwise stated.

(o) Functional and presentation currency

The functional and presentation currency of the Company is Australian dollars.

(p) Comparatives

Where necessary, comparative information has been reclassified to be consistent with current reporting period.

3 Financial risk management

The Company's activities expose it to a variety of financial risks: market risk (including interest rate risk and price risk), credit risk and liquidity risk. The Board of the Company has implemented a risk management framework to mitigate these risks.

(a) Market risk

Market risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

(i) Price risk

Exposure

The Company is exposed to price risk on equity securities listed or quoted on recognised exchanges. This arises from investments held by the Company and classified in the Statement of Financial Position as financial assets at fair value.

The Company seeks to manage and constrain market risk by diversification of the investment portfolio across multiple stocks and industry sectors. The portfolio is maintained by the Investment Manager within a range of parameters governing the levels of acceptable exposure to stocks and industry sectors.

Securities representing over 5 per cent of the investment portfolio at 30 June were:

	2018
	(%)
BHP Billiton Limited	8.2
National Australia Bank Limited	7.2
Wesfarmers Limited	5.7
Westpac Banking Corporation	5.2
	<u>26.30</u>
	2017
	(%)
Commonwealth Bank of Australia	10.2
Westpac Banking Corporation	8.0
BHP Billiton Limited	6.3
	<u>24.5</u>

No other security represents over 5 per cent of the investment portfolio at 30 June 2018 and 30 June 2017.

Sensitivity

The following table illustrates the effect on the Company's equity from possible changes in other market risk that were reasonably possible based on the risk the Company was exposed to at reporting date, assuming a flat tax rate of 27.5 per cent (2017: 30 per cent):

Index	Impact on total equity	
	2018	2017
	\$'000	\$'000
Change in variable +/- 5%	938	766
Change in variable +/- 10%	1,875	1,532

3 Financial risk management (continued)

(a) Market risk (continued)

(ii) Cash flow and fair value interest rate risk

The Company's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

The table below summarises the Company's exposure to interest rate risks. It includes the Company's assets and liabilities at fair values, categorised by the earlier of contractual repricing or maturity dates.

At 30 June 2018

	Floating interest rate \$'000	Non- interest bearing \$'000	Total \$'000
Financial assets			
Cash and cash equivalents	297	-	297
Trade and other receivables	-	151	151
Financial assets held at fair value through profit or loss	-	25,863	25,863
	<u>297</u>	<u>26,014</u>	<u>26,311</u>
Financial liabilities

	<u>-</u>	<u>(187)</u>	<u>(187)</u>
Net exposure	<u>297</u>	<u>25,827</u>	<u>26,124</u>

At 30 June 2017

Financial assets			
Cash and cash equivalents	2,196	-	2,196
Trade and other receivables	-	423	423
Financial assets held at fair value through profit or loss	-	21,891	21,891
	<u>2,196</u>	<u>22,314</u>	<u>24,510</u>
Financial liabilities			
Trade and other payables	-	(691)	(691)
	<u>-</u>	<u>(691)</u>	<u>(691)</u>
Net exposure	<u>2,196</u>	<u>21,623</u>	<u>23,819</u>

The majority of the Company's financial assets are non-interest bearing. As a result, the Company is subject to limited exposure to interest rate risk due to fluctuations in the prevailing levels of market interest rates.

Sensitivity

For the year ended 30 June 2018, if interest rates had increased by 75 or decreased by 75 basis points from the actual year end rates with all other variables held constant, post-tax profit for the year would have been \$2,000 higher/\$2,000 lower (2017: \$12,000 higher/\$12,000 lower) mainly as a result of higher/lower interest income from cash and cash equivalents.

3 Financial risk management (continued)

(b) Credit risk

Credit risk is defined as the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the Statement of Financial Position and Notes to the Financial Statements.

There are no material amounts of collateral held as security at 30 June 2018.

Credit risk is managed as noted in Note 9 with respect to cash and cash equivalents and Note 10 for trade and other receivables. None of these assets are over-due or considered to be impaired.

(c) Liquidity risk

Liquidity risk is defined as the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Board and Investment Manager monitor the cash-flow requirements in relation to the investing account taking into account upcoming dividends, tax payments and investing activity.

The Company's inward cash flows depend upon the level of dividend and distribution revenue received. Should these decrease by a material amount, the Company would amend its outward cash flows accordingly. As the Company's major cash outflows are the purchase of securities, the level is managed by the Board and Investment Manager.

The assets of the Company are largely in the form of readily tradeable securities which can be sold on-market if necessary.

Maturities of financial liabilities

All non-derivative financial liabilities of the Company in the current and prior year have maturities of less than one month.

4 Fair value measurements

The Company measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets and financial liabilities at fair value through profit or loss (FVTPL)

The Company has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

(a) Fair value hierarchy

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

4 Fair value measurements (continued)

(a) Fair value hierarchy (continued)

(i) *Recognised fair value measurements*

The following table presents the Company's assets measured and recognised at fair value at 30 June.

Recurring fair value measurements	Level 1	Level 2	Level 3	Total
At 30 June 2018	\$'000	\$'000	\$'000	\$'000
Financial assets				
Financial assets at FVTPL

Financial assets				
Financial assets at FVTPL				
Listed equity securities	21,891	-	-	21,891
Total financial assets	21,891	-	-	21,891

There were no transfers between levels for recurring fair value measurements during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) *Disclosed fair values*

For all financial instruments other than those measured at fair value their carrying value approximates fair value.

The carrying amounts of trade and other receivables and payables are assumed to approximate their fair values due to their short-term nature.

5 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

Critical accounting estimates and assumptions

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

6 Segment information

The Company has only one reportable segment. The Company is engaged solely in investment activities conducted in Australia, deriving revenue from dividend and trust distribution income, interest income and from the sale of its investments.

These accounts are earning interest at rates between 1.1% and 1.6% as at 30 June 2018 (2017: 1.1% and 1.6%).

(a) Risk exposure

The Company's exposure to interest rate risk is discussed in Note 3. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of cash and cash equivalents mentioned above.

Cash investments are made with J.P Morgan Chase Bank N.A (Sydney Branch) which is rated A+ by Standards & Poor's.

10 Current assets - Trade and other receivables

	151	423

(a) Fair value and credit risk

Due to the short-term nature of these receivables, their carrying amount is assumed to approximate their fair value. The maximum exposure to credit risk at the end of the year is the carrying amount of each class of receivables mentioned above. There are no past due or impaired receivables.

Receivables are non-interest bearing and unsecured.

11 Current assets - Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are all held for trading and include the following:

	2018	As at
	\$'000	2017
		\$'000
Equity securities		
Investments in shares and trusts	25,863	21,891

(i) Risk exposure and fair value measurements

Information about the Company's exposure to price risk and about the methods and assumptions used in determining fair value is provided in Note 3.

Changes in fair values of financial assets at fair value through profit or loss are recorded in investment income in the Statement of Comprehensive Income.

12 Non-current assets - Deferred tax assets

Effective 1 July 2017, the Company commenced using the applicable reduced corporate tax rate of 27.5% as the Company's turnover is under the \$25 million threshold.

(c) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

15 Issued capital (continued)

(d) Dividend reinvestment plan

The Company has established a dividend reinvestment plan under which holders of ordinary shares may elect to have all or part of their dividend entitlements satisfied by the issue of new ordinary shares rather than by being paid in cash. Shares are issued under the plan at a price determined by the Directors from time to time in accordance with the *Corporations Act* and the Listing Rules.

(e) Capital risk management

The Board's policy is to maintain an appropriate level of liquidity in the Company's shares.

To achieve this, the Board of Directors monitor the monthly NTA results, investment performance, the Company's Indirect Cost Ratio (formerly known as 'Management Expense Ratio') and share price movements.

The Company is not subject to any externally imposed capital requirements.

16 Dividends

(a) Dividend franking account

The franked portions of the final dividends recommended after 30 June 2018 will be franked out of existing franking credits.

Independent Auditor's Report

To the shareholders of CBG Capital Limited

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of CBG Capital Limited (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Company's financial position as at 30 June 2018, and of its financial performance and its cash flows for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Statement of financial position as at 30 June 2018
- Statement of profit or loss and other comprehensive income, Statement of changes in equity, and Statement of cash flows for the year then ended
- Notes including a summary of significant accounting policies
- Directors' Declaration.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Company in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

The **Key Audit Matters** we identified are:

- Valuation of financial assets
- Impact of outsourced service providers

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of the financial assets held at fair value through profit or loss (\$25.9m) – refer note 11

The key audit matter	How the matter was addressed in our audit
<p>Financial assets held at fair value through profit or loss are comprised of listed equities.</p> <p>Valuation of investments in listed equities is a key audit matter due to:</p> <ul style="list-style-type: none"> - these assets represent 96% of the Company’s total assets; - the importance of the performance of these assets in driving the Company’s investment income and capital performance, as reported in the financial report; - the high degree of time spent by the audit team in performing the audit procedures in relation to the valuation of these assets. 	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Obtained and read the Company’s custodian’s GS007 (<i>Guidance Statement 007 Audit Implications of the User of Service Organisations for Investment Management Services</i>) assurance report to evaluate the custodian’s processes to record the Company’s investments; • Checked the ownership of the investment holdings to custody reports to test existence and ownership of investments being valued; • Checked the valuation of the investments, as recorded in the general ledger, to independent third party pricing sources.

Impact of outsourced service providers

The key audit matter	How the matter was addressed in our audit
<p>As the Company has placed significant reliance on external providers for its operations, the processes and controls of these external providers represent a key audit matter due to their significance in the preparation of the Financial Report.</p> <p>CBG Capital Limited contracts outsourced service providers to perform the following services:</p> <ul style="list-style-type: none"> • Custody and Financial Reporting; and • Registry services. <p>The relevant processes and controls of each of these outsourced service providers are therefore a key consideration for our audit. We focused on the impact of those processes and controls on the Company’s financial reporting.</p> <p>Each of the outsourced service providers obtains a GS007 report from an independent audit firm on the controls and processes at the service provider. Given the significance of these services in relation to our audit, we spent considerable audit effort in this area, involving senior members of the audit team.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Obtained and read the Company’s relevant GS007 (<i>Guidance Statement 007 Audit Implications of the User of Service Organisations for Investment Management Services</i>) assurance reports to evaluate the impact on the financial reporting processes; • Using our knowledge of the industry and entity, we evaluated the service auditor’s reputation, competence and independence; • Considered the Board’s processes to monitor the performance of the outsourced service providers to contracted performance standards by observing meetings and other communications between the Directors and the service providers.

Other Information

Other Information is financial and non-financial information in CBG Capital Limited's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. This includes the Report to Shareholders, Investment Manager's Report, Corporate Governance Statement, Shareholders Information and the Directors' Report. The Directors of CBG Capital Limited are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error
- assessing the Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: http://www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of CBG Capital Limited for the year ended 30 June 2018, complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in the Directors' Report for the year ended 30 June 2018.

Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with *Australian Auditing Standards*.
